

CBSE Class X IT (402)

Common Repeated Questions with Solutions

EMPLOYABILITY SKILLS

Q1: Elements of communication process

Ans: **Sender** (originator), **Message** (information), **Channel** (medium), **Receiver** (recipient), **Feedback** (response)

Q2: Types of motivation

Ans: **Internal:** Self-driven (pride, achievement); **External:** External rewards (money, grades, recognition)

Q3: Myths about entrepreneurship

Ans: Myth 1 - Every idea must be unique (False); Myth 2 - Need lots of money (False: can start small); Myth 3 - Only big business = entrepreneur (False: all scale count)

Q4: Qualities of successful entrepreneur

Ans: Risk-taking, Decision-making, Innovation, Hard work, Self-confidence, Positive attitude, Adaptability, Commitment

Q5: How to manage stress at work

Ans: Practice yoga/meditation, Exercise regularly, Take breaks, Manage time well, Maintain work-life balance, Use relaxation techniques

Q6: SDGs - Why did UN create 17 SDGs?

Ans: To tackle: Poverty, Hunger, Health, Education, Gender equality, Clean water, Energy, Growth, Innovation, Inequality, Cities, Consumption, Climate, Marine life, Land, Peace, Partnerships

DIGITAL DOCUMENTATION

Q7: What are styles in LibreOffice Writer?

Ans: Predefined formatting templates. **Types:** Paragraph (alignment, spacing), Character (font, bold), Cell (for tables), Graphics (line, shadowing)

Q8: Purposes of templates

Ans: Reusable formatting, Consistent appearance, Save time, Pre-formatted styles, Headers/footers ready, Professional appearance

Q9: What is Track Changes?

Ans: Feature that records all edits in document. Shows what was added, deleted, or modified. Useful for collaborative editing with reviewers.

Q10: What is text wrapping?

Ans: Determines how text flows around images/graphics. Options: Square (text around sides), Behind (image behind text), In front (image on top)

SPREADSHEETS - CRITICAL TOPICS

Q11: Goal Seek vs Scenario (VERY IMPORTANT)

Ans: **Goal Seek:** Finds input value for target output (e.g., 'Marks needed for 75% aggregate?'); **Scenario:** Creates multiple what-if plans to compare

Q12: When to use Goal Seek?

Ans: When you have a target and need to find required input. Example: EMI must be 12,000/month - what loan duration needed?

Q13: What are Macros?

Ans: Recorded sequences of actions that replay automatically. Benefits: Save time on repetitive tasks, Reduce errors, Automate formatting, Apply formulas to ranges

Q14: Operations with Macros

Ans: Formatting cells, Applying formulas to ranges, Creating charts, Data validation, Sorting/filtering, Automating reports

Q15: Absolute vs Relative Hyperlinks

Ans: **Absolute:** Fixed path (breaks if target moves); **Relative:** Changes based on location (works when files move together). Better for portable documents.

DATABASE - MOST IMPORTANT

Q16: Primary Key vs Foreign Key

Ans: **Primary:** Uniquely identifies each record, one per table, cannot be NULL; **Foreign:** References another table's primary key, creates relationships, multiple allowed

Q17: Why Primary Key is important?

Ans: Ensures uniqueness, Enables record identification, Maintains data integrity, Facilitates relationships, Prevents duplicates

Q18: What is Referential Integrity?

Ans: Rule that maintains consistency. Foreign key values must match primary key in referenced table or be NULL. Prevents invalid relationships.

Q19: How to create relationships?

Ans: Use Relationships tool, Select primary key from master table, Select foreign key from transaction table, Set referential integrity rules

Q20: What are Forms?

Ans: User-friendly interface for data entry/modification. Features: Labels, Field controls, Graphics, Titles, Better presentation than raw table

Q21: Purpose of Queries

Ans: Retrieve filtered data based on conditions. More flexible than forms. Can combine data from multiple tables.

HEALTH & SAFETY

Q22: What is Ergonomics?

Ans: Science of designing equipment to fit human body. Importance: Prevents injuries, Increases productivity, Reduces health problems, Maintains comfort

Q23: Causes of musculoskeletal problems

Ans: Poor posture, Uncomfortable chairs, Repetitive movements, Few breaks, Wrong monitor height, Improper keyboard placement

Q24: How to protect your data?

Ans: Use strong passwords, Install antivirus, Enable encryption, Avoid public WiFi, Regular backups, Use VPN, Two-factor authentication
