

CBSE Class X IT (402)

Unique Questions (One-Time Appearances) with Solutions

2024-25 UNIQUE QUESTIONS

Q1: Cultural Barriers

Ans: Occurs when people from different backgrounds have different customs, values, and communication styles. Example: Communication differences between countries/cultures.

Q2: Occupational Overuse Syndrome (OOS)

Ans: Repetitive Strain Injury from repetitive movements, poor posture, inadequate breaks. Affects: Hands, wrists, shoulders, neck, back.
Prevention: Stretching, ergonomic setup, breaks

Q3: Relative Hyperlinks

Ans: Stores location relative to current position. Changes when location changes. Better for portable documents. Works when files move together.

Q4: Macro IDE/Editor

Ans: Integrated Development Environment. LibreOffice has built-in macro editor. Different from Notepad or Word. Used for creating/editing macros.

Q5: Information definition

Ans: Organized and processed data that provides meaningful insights. Data (raw facts) + Processing + Context = Information

Q6: Relational Data Model

Ans: Data stored in related tables. Most commonly used model. Allows relationships between tables for efficient data retrieval.

Q7: Reports in OpenOffice Base

Ans: Formatted presentation of query results. Used for output/display. Different from Forms (which are for input).

Q8: Fire Safety

Ans: Use fire extinguisher for small fires. Types: A (wood/paper), B (liquids), C (electrical), D (metals). Don't use water on electrical fires.

2022-23 UNIQUE QUESTIONS

Q9: Disk Defragmentation

Ans: Process of reorganizing disk files. Fragmented files scattered across disk. Defrag groups data together. Improves performance and speed. Less relevant for SSDs.

Q10: Toggle Keys vs Sticky Keys

Ans: **Toggle**: ON/OFF with each press (Caps Lock); **Sticky**: Hold modifier keys without pressing (Shift, Ctrl); **Filter**: Adjust keyboard sensitivity

Q11: Online Shopping

Ans: Useful when: Need convenience, Want variety, No time for stores, Price comparison needed, 24/7 access needed. Popular sites: Amazon, Flipkart, eBay, Myntra

Q12: Mail Merge Components

Ans: **Data Source**: File with variable data; **Main Document**: Template with placeholders; **Merge Field**: Placeholder replaced with data (<>)

Q13: SQL Query Example

Ans: SELECT SaleId, Price FROM Sales WHERE Discount > 1000; (Display ID and price of products with discount > 1000)

Q14: DBMS Explanation

Ans: Software for creating/managing databases. Advantages: Data integrity, Sharing, Security, Consistency, Reduced redundancy. Programs: Base, Access, MySQL

Q15: Internet Terminology

Ans: **ISP:** Company providing internet; **WAP:** Wireless Application Protocol; **W3:** World Wide Web. Indian ISPs: BSNL, VSNL

2020-21 UNIQUE QUESTIONS

Q16: Network Types - LAN

Ans: Local Area Network - Limited area (building/campus), High speed, Low cost. Other types: WAN (countries), MAN (cities), PAN (personal Bluetooth)

Q17: Modem Definition

Ans: Modulator-Demodulator. Converts digital ↔ analog signals. Essential for internet over phone lines. Difference: Modem connects to ISP; Router connects multiple devices.

Q18: Solver Tool

Ans: Finds optimal solution to complex problems. More advanced than Goal Seek. Can handle multiple variables and constraints. Example: Maximize profit given resource limits.

Q19: Shared Worksheets

Ans: Allows multiple users to edit simultaneously. Tracks changes from each user. File must be in shared location. Can merge changes and see who did what.

Q20: Field Properties

Ans: **Entry Required:** Makes field mandatory; **Default Value:** Auto-fills if user doesn't provide; **Data Type:** Specifies kind of data; **Field Size:** Max characters

Q21: Drawing Shapes in Writer

Ans: Built-in drawing tools. Insert: Shapes, lines, circles, rectangles. Used for: Flowcharts, diagrams, visual representations. Can add text and connect shapes.

Q22: Image Cropping

Ans: Removes unwanted portions. **Crop:** Removes part; **Resize:** Makes larger/smaller; **Layout:** Arranges relative to text. Non-destructive if saved as new version.

STUDY STRATEGY

HIGH Priority (2024-25): OOS, Fire safety, Hyperlinks, Reports

MEDIUM Priority (2022-23): SQL, Mail Merge, DBMS, E-commerce

LOW Priority (2020-21): Network types, Cropping, Shapes, Solver
